

Hello,

I am writing to testify in opposition to Bill HB 5429. There is no need for state control of zoning laws.

This is a corrupt push by developers who are trying to force through projects that maximize their profits under the false premise of desegregation. 8-30g will not solve the affordable housing problem. Rather, it will harm our environment, increase municipal infrastructure spending, and devalue our real estate. Keep zoning under local control.

Thank you,  
Dana Francks
